

### **CV-19 Member Rules**

- 1.** We will be using the [Cleared4Work](#) management platform in order to monitor CV-19 symptoms across our coworking spaces. This means we will be asking our members to install the app and use it daily. You will show your green pass as you enter each day. We will then quickly take your temperature with our infrared thermometer (2 seconds) and upload it to the program. The process should take only 2 minutes! This will ensure not only you are healthy, but that you are keeping your family and friends healthy, too.
- 2.** The recommended person-to-person distance is 6 feet and seating at our tables and desks will reflect this as well.
- 3.** There will be a designated entrance and exit in each building to create one route of traffic.
- 4.** To maintain 6 ft social distancing, please do not gather in the entrance. If someone is checking in, please stand at least 6 feet away in the foyer.
- 5.** Our facility will be sanitized every morning and all hard surfaces, door handles and light switches will be wiped down.

Thank you for helping us to create a safe and healthy environment for everyone!
